Service and Vendor Providers

Unicis has entered into agreements with the following external vendors and service providers. These are third parties we rely on where self-hosted alternatives are not available or practical.

For self-hosted tools managed by Unicis, see Tech Stack Applications. For subprocessors handling customer or personal data, see Trusted Subprocessors.

Infrastructure & Hosting

OVHCloud

URL: https://www.ovhcloud.com/

DNS Zones.

Scaleway

URL: https://www.scaleway.com/

Bare-metal and VPS servers in France and the Netherlands. Part of core EU-hosted infrastructure.

Development & Source Code

GitHub

URL: https://github.com/unicis

Hosting service for open-source software projects using Git.

Community Edition only: Only community and open-source code repositories are permitted to be published on GitHub.

GitLab

URL: https://gitlab.com/

Hosting service for private and proprietary software projects using Git.

Business Edition and proprietary code only: Only proprietary code is permitted. Not shared with the public.

Finance & Legal

Xolo

URL: https://www.xolo.io/

Unicis tax, accounting, and finance reporting advisors (Estonia/EU).

Wise

URL: https://wise.com

Online banking and payment service used for international transfers and vendor payments where Dolibarr payment links are not applicable.

Freelancing & Talent

Upwork

URL: https://www.upwork.com/

Freelancing platform used to source and contract short-term contributors and specialists.

Community & Funding

Open Collective

URL: https://opencollective.com/

Open Collective is a crowdfunding and fiscal sponsorship platform used to receive and manage open-source community funding transparently.
